The world behind
YOUR CURTAINS

FOREST DS-XL®

To complement the range of elegant curtain track systems, Forest has developed a decorative curtain track system, the DS-XL®. A unique and elegant curtain track that can be installed flush against the ceiling, or with pillar wall brackets.

The DS-XL® track system has been especially designed for use with our wave system, Forest Easyfold System. But it can also be made with regular pleated curtain headings. Thanks to its symmetrical profile the system is suitable for a blind installation against the ceiling, with click or swivel brackets.

PRODUCT INFORMATION

- Elegant and aesthetical hand drawn and corded curtain track system.
- For all types of medium weight draperies.
- Quick and easy installation.
- Ceiling brackets and wall brackets available.
- Heay duty carriers - uv protected - for smooth and easy traversing.
- Colours available: white, silver or anthracite with matching components.
- Available length: standard stock size 6 meter (19,8")
- Especially designed for use in combination with Forest Easyfold System.

FOREST EASYFOLD® SYSTEM

Opt for a regular pleated heading or choose for a more dramatic effect for the Forest Easyfold® wave system. Our wave system is designed so that the curtains maintain their folding effect from the moment they are dressed.
- Easyflex with pockets on the heading tape, allowing for a flexible positioning of the hooks, in combination with Easyflex carriers and Easyflex hooks.
- Easywave with pockets on the heading tape, allowing for a flexible positioning of the hooks, in combination with rotating Easywave carriers and single endhooks.
- Easysnap with metal snaps on the heading tape, allowing for a fixed wave distance, in combination with Easyfold base carriers.

FOR USE IN

Hotels, offices, residences, boats, campers, planes or anywhere an efficient and elegant track system is required for curtains and drapes.

FOREST DS-XL® LED / Motorized

This unique drapery system combines a stylish design with a unique way of lighting. Many designers will work with a lighting plan with three levels: High, especially if the ceiling is vaulted or has been finished with a special material; medium, which includes wall sconces; and low, which means floor lamps and other small lights. Our DS-XL® LED is the solution for a lighting plan on a higher level, integrating our track to create an overall glow on the ceiling.

The DS-XL® LED is an elegant system for all types of medium weight draperies. Available length up to 6 meter in 2 colours: timeless white and in a stylish anthracite finish, making it suitable to fit in every design. It also offers the possibility to illuminate the backside and/or the curtain track itself enabling a higher level of privacy.

SUSTAINABLE LIGHTING

Traditional ways of lighting are very wasteful. Most of the power is wasted in the form of heat. This is why there has been a big push to change the environmental impact of lighting. Another benefit of LED lighting is sustainability and eco-friendliness. The system doesn't use toxic chemicals and it can last for years. It has a life span of approximately 30.000 hours.

NEW: DS-XL® LED MOTORIZED TRACK SYSTEM

The DS-XL® LED Motorized track system is the latest innovation of the Forest Design Series. This brand new drapery system is designed to create visual impact and provides superior functionality and ease of use to the end-user. Controlling the curtains and integrated LED-lighting by remote control or building automation system guarantees a unique experience of atmosphere and comfort in any room.
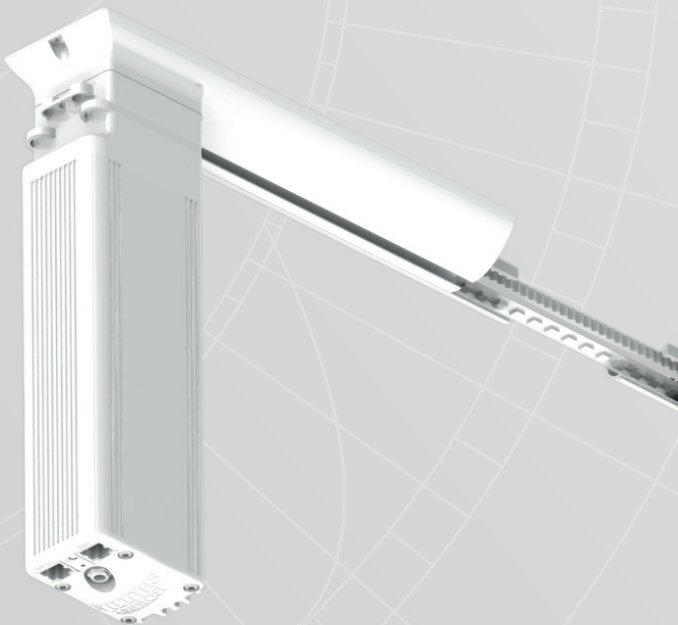

PRODUCT INFORMATION

- Designer track for lighting and curtain track combined.
- Especially designed for Forest Easyfold application.
- Easy electrical installation by means of clickable connectors.
- Ceiling brackets and wall brackets available.
- One LED strip or two led strips for extra luminosity.
- LED Colour temperature: warm white 3000K
- Low energy consuming LED strip, eco friendly.
- Dimmable LED strips (120 LED's per meter)
- LED Lifespan of 30.000 hours.
- No soldering, clickable components for easy installation without the need for an electrician.
- Power: 15 watt/mtr (4.6 Watt/ft)
- Energy label A+
- Colours available: white and anthracite.
- The DS-XL® LED Motorized system can be integrated into any building automation system.
- The motorized track system can be installed onto all Forest Motorized systems like; Shuttle® and FMS®.
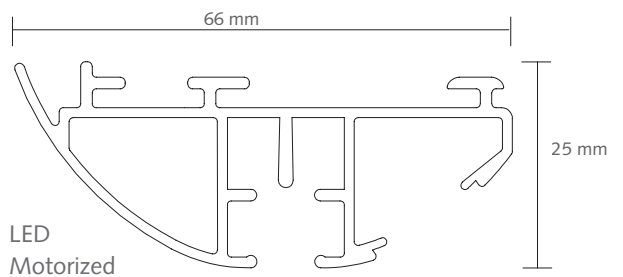

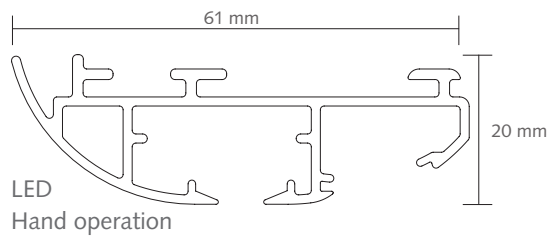

FOR USE IN

Hotels, offices, residences, boats and yachts, showrooms, business meeting rooms, conference centers or anywhere an efficient and elegant track system is required for curtains and drapes.

DS-XL® LED Motorized track system is compatible with many other Building Automation systems, thanks to its modular construction. A competitive advantage over the motorized drapery systems in the world!

CONTROL OPTIONS

Our broad range of controls make finding a fit for your home even easier; controlling the curtains by hand, remote or even by building automation system. With the remote you can control the curtains and light in any position you like. Controlling the motorized curtain system by your smartphone or tablet, you can create and schedule customized room scenes that allow your curtains to operate on their own throughout the day.

FOREST DIAMOND SENSE REMOTE
15 Channel Remote control, possibility to control up to 15 systems individually and in group by integrated timer function or manual. Auto-On mode, when holding hand above it, the integrated LED light will automatically come on. Radio control, range up to 30 meters. Including magnetic wall support.

BUILDING AUTOMOTION
The DS-XL® LED Motorized track system can be connected to any Building Automation system, by relay control.
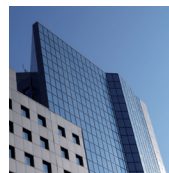

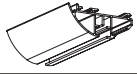

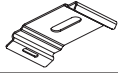

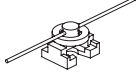

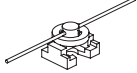

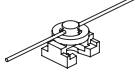

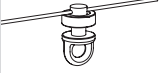

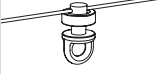

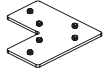

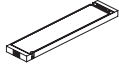

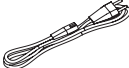

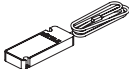

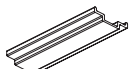

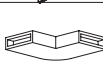

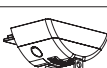

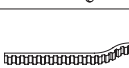

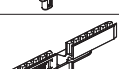

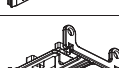

HOTEL CONTROL
The DS-XL® LED Motorized track system can be connected to any Hotel Automation system, by relay control.

OTHER CONTROL OPTIONS
Z-Wave receivers and controls and switch control are available on request.
