MCS[®]
Multi Channel System

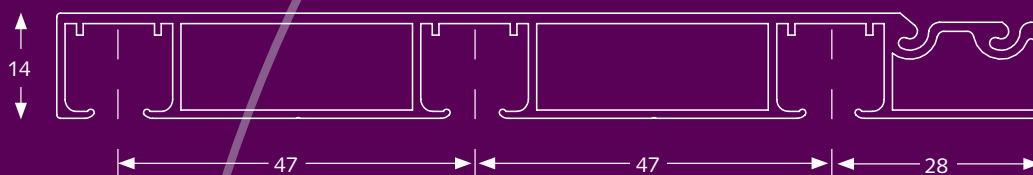

MCS Track 2/3 Glide Product information

- Asymmetric Reversible Multi Channel System, for use as a 3 or 2 channel track;
- Profile thickness only 8 mm;
- Easy installation thanks to 4,5 mm pre-drilled holes; For countersunk installation, 10mm cover caps also available. A profile version without pre-drilled holes is also available;
- Available in white, inox-pc and anthracite.
- KS components can be used;
- FES also applicable on MCS;
- Maximum fabric weight 15 kg per running meter of the track.

Profile

- Aluminium extrusion, powder coated, lubricated. Available in 6 meter length.
- One side of the profile has 3 channels, asymmetrically placed, to accommodate for a full sheer curtain, and two separate blackout curtains; these blackout curtains can overlap each other to prevent light leakage. The wider the fabric panels, the bigger the overlap will become.
- The other side of the profile has 2 channels, symmetrically placed, to accommodate for a sheer and blackout curtain in a traditional set-up.

MCS Track 3 Product information

- 3 glide Multi Channel track System;
- Easy installation thanks to pre-drilled holes;
- Sufficient spacing between the channels to allow for different pleating options;
- KS components can be used;
- FES also applicable on MCS;
- Maximum fabric weight, 30 kg per running meter of track;
- Optional front cover cap available, for creating an easy pelmet cover.

Profile

Aluminium extrusion, white powder coated, lubricated. Available in 4 and 5 meter length. Holes for fixing the track are pre-drilled every 50cm. Plastic cover caps for the fixing holes are available. The weight of the track is 1.14 kg/mtr.

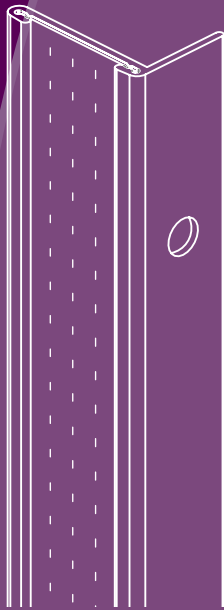

For use in

Hotels, offices, residences, boats, campers, planes or anywhere an efficient Multi Channel track System is required for curtains and drapes.

MCS 2/3 Glide Pelmet Profile

A specially developed pelmet profile, aluminium extrusion, which can be placed on top of the MCS track during installation and secured in place. The perfect solution if no separate pelmet or curtain box has been foreseen.

Blackout Profile

The ideal solution to create a perfect blackout on the side of each curtain. The Velcro Hotel Profile is suitable for any Forest curtain rail system. The L shaped profile comes with pre-drilled holes every 50 cm, allowing for an easy fixation on the sides of the window. When the curtain hems are lined with Velcro loop tape, the curtain can be easily fixed against the profiles, eliminating light leakage.

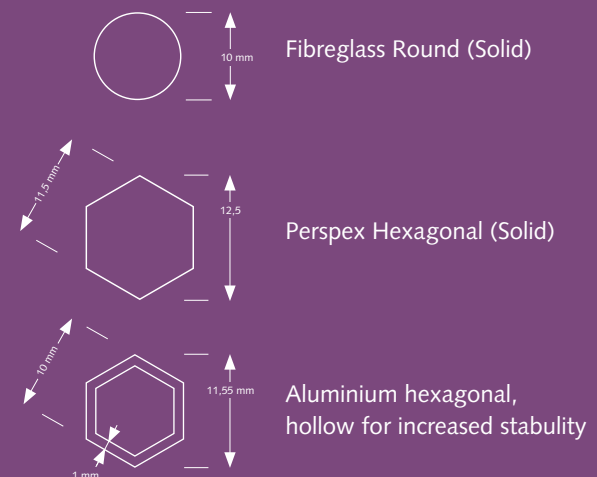

Draw Sticks

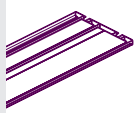

To complement the range of manually operated curtain track systems, Forest offers a wide range of draw sticks. By using a draw stick, a smooth operation and clean curtains are guaranteed. The draw sticks are finished with a stainless steel hook at the top, for easy fixation to the curtain track master carriers. Standard sizes: 92 cm, 122 cm and 152 cm.

Three versions are available:

- Fibreglass round
- Perspex hexagonal
- Aluminium extruded and hardened, finished with a cover cap at the bottom, hexagonal shaped and powder coated in four colour options, white (also 202cm available), inox-pc, anthracite-pc and antique-pc.
